

Smartphone App for Using University Email

We recommend you to **forward the university email to your private email account to keep checking important information from university.**

Moreover, you can use the university email with using dedicated app on your smartphone. **We also recommend you to use this app since there are less troubles comparing to forwarding emails.**

How to Set and Use the App of University Email

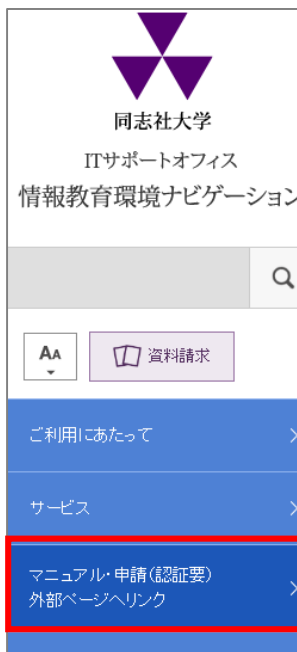

“How to set and use the app of university email” is different depending on OS. You can find information for using this app on the web page of Doshisha University IT Support Office.
