Updated Nov. 13, 2019

On November 11th (Mon.), SIED hosted an event, "Herbarium Workshop" at the International Community Lounge on Imadegawa Campus. "Herbarium" is a small flower interior, which have been popular in Japan for 2-3 years. This was an event for both international and local students to learn Japanese culture or trend and interact with one another.

The event started with a presentation by SIED staff about Japanese fall cultures. After introducing what Herbarium is and how to make it, participants started to make their own Herbarium. They chose a bottle and various kind of flowers as they like. The event was harmonious atmosphere from beginning to end. Participants seemed to enjoy this event so much!! Some participants said "I was able to make lovely Herbarium." or "It was really fun event!"

SIED will keep on holding various kinds of event throughout the year. Please feel free to come and join us!
